

## Fancy a different look for your Blade mSR or Blade mCX Helicopter?

### Hughes MD-500E body shell for Blade mSR and Blade mCX

Separate versions of this stunning scale body shell are available for the Blade mSR and Blade mCX. The Blade mCX version is lighter due to the lower power of the model, featuring additional lightening holes and a different skid assembly. Both versions can be in the seven colours above. Kit contains the MD-500E scale body, fins, windshield, fibreglass parts tree, struts, battery supports, Aluminium Skids (mSR kit only), rubber skid retainers, set of trim and logo decals and 2 rubber battery straps. The cost of the kit (including delivery) is likely to be around £30\*

### Schweizer S300 body shell for Blade mSR and Blade mCX

This simple scale kit contains the scale body, fins and a set of trim and logo decals. The cost of the kit (including delivery) is likely to be around £16\*. This body kit will work with the stock Blade mSR skids but works and looks best with the TUFF LG Kit available separately (as shown above). The TUFF LG kit contains a fibreglass parts tree, 2 TUFF struts, 2 skids, 2 rubber spacers, 2 Nylon screws & 2 rubber battery straps and will be around £16\*

### Nano Nellie Upgrade Body and Trike LG Kit for Blade mSR and Blade mCX

Fancy a totally different look, then maybe the Nano Nellie is for you. This upgrade body is inspired by the famous Little Nellie, James Bond's autogyro, flown in the movie You Only Live Twice.

The kit contains the Nano Nellie Body, a Fibreglass Trike LG parts tree, wheels, axles & wheel mounting hardware, LG Mounting Hardware, Tail Fin & decals. The body shell is available in black, white, grey and yellow.

These kits will be around £22\*

---

Jan Bassett is intending to buy at least one of these body kits for himself and is happy to buy kits for others as it will reduce the cost per kit. If anyone is interested in getting (one) or more of this kits, or wants more information, please contact Jan by email at [jbassett@ef-uk.net](mailto:jbassett@ef-uk.net) or by telephone on 01935 472 743

\*The cost of delivery to the UK is dependent on the number of kits purchased; the cost per kit reduces with increasing quantity bought overall. The total cost of any kits will be confirmed prior to ordering and there will be no commitment until the price is accepted.
